PULSE has been spinning the weelz of steel since 1998. Starting with Jungle and Drum´n´Bass at the age of 18, he confronted lovely little Upper Austria with some fast dark beats. In 2002, on a trip to London, PULSE discovered the uprising UKGarage scene. As he was not able to get rid of this style, he got deeper and deeper into UKGarage/Grime/Dubstep music. Until the present day PULSE surprises the crowd with innovative, cutting-edge produced tunes.
